An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Charles H. Thomas on 10/27/04.

The application has been amended as follows:

In the specification, page 16 (line 16) and page 20 (line 19), "80" has been changed to -81--.

In claim 1,

line 4, -flat—has been inserted before "hub", and

line 13, "cores" has been changed to -core portions--.

In claim 3, line 3, "a" (last occurrence) has been changed to -said--.

The following changes to the drawings have been approved by the examiner and agreed upon by applicant: reference numeral 80 in figure 7 is to be changed to -81— and the lead line for reference numeral 82 (in element 12 of figure 1) is to be extended to the corresponding aperture. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

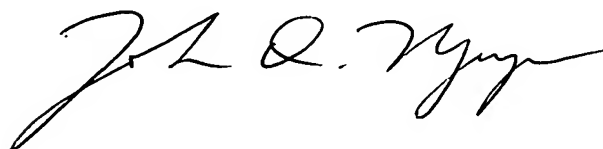

The following is an examiner's statement of reasons for allowance: the prior art of record does not show or render obvious a reel having a hub and a pair of side retainers/retaining members as recited in claims 1, 7, and 13.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
